

POWER IN SIMPLICITY

The powerful VEI systems, with their simple components and applications, reduces machine downtime during system installation at your site. Very simple, the system consists of only 4 components, eliminating the need for any additional junctions or power supply boxes. Our systems are perfectly installed by specialized technicians, trained at our VEI centre.

Within a few hours, your wheel loader becomes a portable weighing machine. Wheel loader manufacturers worldwide appreciate our know-how and our easy and careful installations. VEI, your ideal partner for complementary value to your wheel loader.
